

Oral Health Care Support During COVID-19

With the coronavirus outbreak, most dentist offices are closed except for emergency procedures and Emergency Rooms are currently overcrossed. This has caused Virtudent to step in to start providing [Virtual Dental Consultations](#). Now, if a patient has a question, problem, or concern, one of their dentists can answer their questions. They will provide advice, prescribe appropriate medication, and refer them to a specialist when needed. Go to www.virtudent.com/teledentistry to learn more about the service. No contracts or commitments are needed. You can simply share the information with your employees and their families so they have access to this service if they need it.

Virtudent is offering Virtual Dental Consultations from 8:00 AM to 8:00 PM ET, Monday through Friday. They will bill the dental insurance provider directly for a limited oral evaluation. If the patient doesn't have dental insurance coverage, the cost will be the discounted rate of \$49.

Virtudent dentists can help address dental or oral healthcare challenges, including:

- a loose filling
- breaking a tooth or a filling
- bleeding or swollen gums
- pain or tooth sensitivity
- grinding or clenching their teeth
- muscle soreness or discomfort while chewing
- oral sores or lesions
- Provide guidance and support
